Field Name	Type	Description
connectRetryCounter	int	the number of times to retry a tcp connection
SessionDownCounter	int	the number of times BGP session goes down
lastDownTime	time_t	last BGP session down time
messageRcvd	Int	the number of received BGP messages
establishTime	time_t	BGP session establishment time
lastRouteRefresh	time_t	last route refresh sending time
NannRcvd	int	the number of 'new annnoucement' updates
LastHourNannRcvd	int	the number of 'new annnoucement' updates during the last hour
DannRcvd	int	the number of 'duplicate annnoucement' updates
LastHourDannRcvd	int	the number of 'duplicate annnoucement' updates during the last hour
SpathRcvd	int	the number of 'same path' updates
LastHourSpathRcvd	int	the number of 'same path' updates during the last hour
DpathRcvd	int	the number of 'different path' updates
LastHourDpathRcvd	int	the number of 'different path' updates during the last hour
WithRcvd	int	the number of 'withdraw' updates
LastHourWithRcvd	int	the number of 'withdraw' updates during the last hour
DuwiRcvd	int	the number of 'duplicate withdraw' updates
LastHourDuwiRcvd	int	the number of 'duplicate withdraw' updates during the last hour
momeryUsed	long	the number of bytes used to store RIB-IN table
prefixCounter	int	the number of prefixes in RIB-IN table
attrCounter	int	the number of unique attributes sets in RIB-IN table
